

When you look at HR, what do you see?

Do you see what others do? People who process paperwork, manage compliance, and police policy?

What we see is potential for greatness—potential that's often overlooked. HR keeps a finger on the pulse of an organization, and can chart a course around obstacles to increase productivity and strengthen culture—but only if they have the right tools and the time to use them.

We see people wishing for freedom from paperwork so they can manage employees in a way that develops their value.

When you think of HR software, what do you think it can do for you?

It's easy to frame information management software as the future of HR. As organizations grow, transactional work—the daily data-crunching HR has to do—always increases. And whether it's hiring, onboarding, or time tracking, centralizing that data and automating transactional tasks are key in order

for HR to keep pace. Organization and automation are critical, but they only paint part of the picture.

We can save you time and money through automation. But HR is also responsible for building culture, improving engagement, and inspiring performance. The software you choose has to help you not only manage data, but use it to reach more strategic goals.

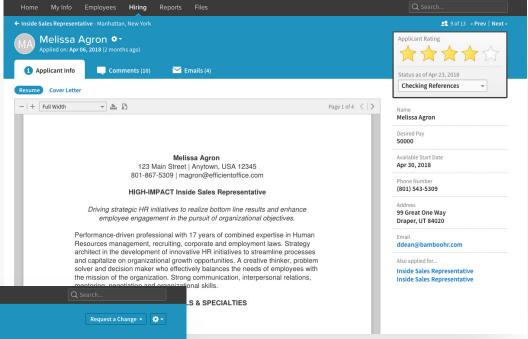

Automation sets you free to do great work. Elevating your operational tasks so they provide the most business value—now that's the great work we're talking about. BambooHR provides tools to help make the most of your freedom. We empower you to become what we see when we look at HR: a game-changer for your company.

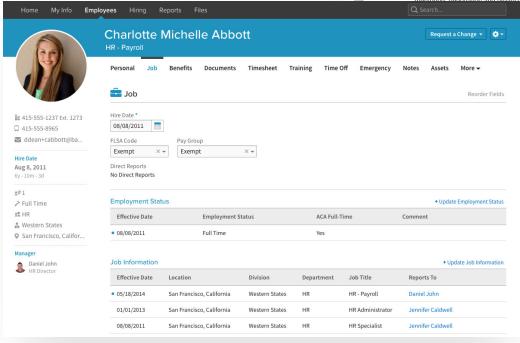

BambooHR addresses the evolving needs of HR. We not only save you time and money, we enable you to increase the strategic value HR provides to your company.

Get the jump on star talent and create a stronger brand perception by being more responsive and organized than the competition. Integrated ATS means you can track candidates from application to onboarding and only enter data once.

Employee Records

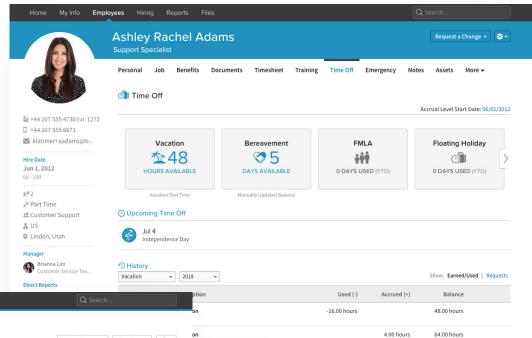

Organize employee information in one, centralized location, accessible from anywhere. Effortlessly track historical data to stay compliant and accurate.

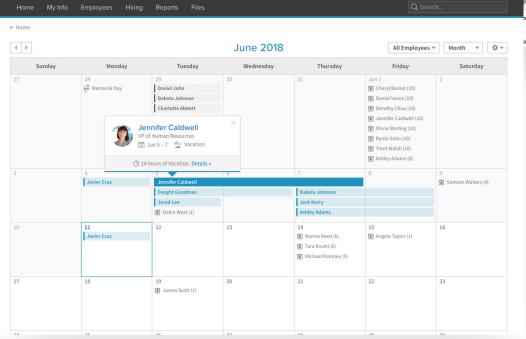

"Before BambooHR, I'd sometimes spend half of my day chasing paperwork and missing pieces of information."

-Sarah Blue, VP of Operations, Beans & Brews

Time-Off Management

Save valuable time with automated time-off requests and approvals. Create your own categories of time off —like sick days, vacation, bereavement, jury duty and more. Set accrual policies, track available and used time off, and generate reports.

Who's Out Calendar

See who's out—and who will be—by department or across your entire organization. Custom settings allow you to select who can view the calendar, and iCal feeds help you sync it with your existing email calendar.

Training Tracking

By remotely monitoring employee training, you can ensure compliance while tracking employee development. More and better training means increased productivity and engagement.

"Implementing...[BambooHR] enabled North Eastern Services to increase compliance with mandatory trainings from 51 percent to 99 percent."

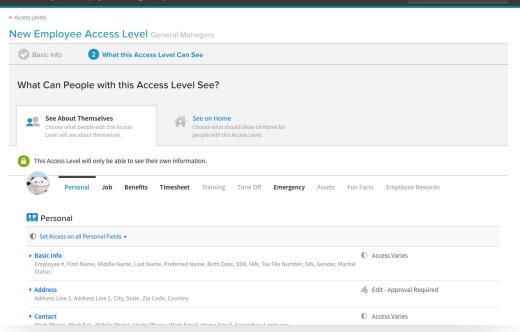

-Training Magazine

Ensure the protection of sensitive data by using access levels to manage the information employees can view and change.

Custom Tabs and Fields

Track the unique needs of your company by creating custom tabs and fields. Customizing your system allows you to be inventive and deliberate in the information you track, so you can enhance culture, make informed decisions, and guide the company.

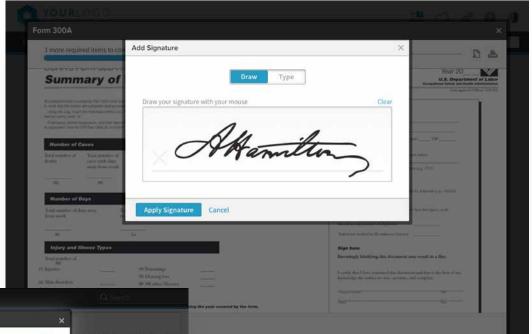

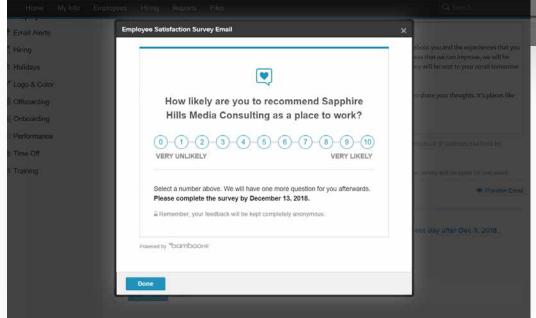

Custom Workflows

Remove bottlenecks by automating current approval processes and creating new ones so the company can move forward faster.

Electronic Signatures

Quit chasing physical paperwork. Electronic signatures make compliance easier, improve experiences like onboarding and enrollment, and eliminate paper waste for a greener planet.

Employee Satisfaction with eNPS

Employee satisfaction is a barometer for your organization's overall health. BambooHR Employee Satisfaction gives you the power to measure it with Employee Net Promoter (eNPS) scoring.

Performance Management (Add-on)

We've reinvented performance reviews to give you faster, more frequent, more relevant, and more honest results.

BambooHR also includes these features

Employee Self-Service

Company Announcements Board
